VOLUME 76 · SUBJECT INDEX

Ablation
Mitral valve replacement for pacing-induced severe mitral regurgitation after radiofrequency ablation of the atrioventricular junction **457**
Non-surgical ablation of the ventricular septum for the treatment of hypertrophic cardiomyopathy **92**
Treatment of ventricular tachycardia-induced cardiomyopathy by transcatheter radiofrequency ablation **550**
ACE inhibitors, Changing patterns of investigation and treatment of cardiac failure in hospital **427**
ACE inhibitors unmask incoordinate diastolic wall motion in restrictive left ventricular disease **326**
Acute inferior myocardial infarction, Is thrombolytic therapy really better than conventional treatment in acute inferior myocardial infarction? **291**
Acute myocardial infarction
Coronary Palmaz-Schatz stent implantation in acute myocardial infarction **91**
Evaluation of mortality and morbidity during four years after late thrombolysis in acute myocardial infarction **291**
Adult congenital heart disease, Family planning requirements in the adult congenital heart disease clinic **60**
Adverse effects, Fludrocortisone in the treatment of hypotensive disorders in the elderly **507**
Airway responsiveness, Airway and cough responsiveness and exhaled nitric oxide in non-smoking patients with stable chronic heart failure **144**
Anatomy, Ventricular myoarchitecture in tetralogy of Fallot **280**
Angina
Stress proteins **97**
Transmyocardial revascularisation **191**
Angiography
Coronary ostial occlusion **411**
Digital storage and transmission of cardiovascular images **13**
Multi-Track angiography catheter **173**
Angioplasty
Changes in membrane glycoproteins of circulating platelets after coronary stent implantation **166**
Effect of pre-treatment with transdermal glyceryl trinitrate on myocardial ischaemia during coronary angioplasty **471**
How epicardial U-wave changes are reflected in body surface precordial electrocardiograms in anterior or inferoposterior myocardial ischaemia during coronary angioplasty **397**
Intravascular ultrasound-guided emergency coronary Palmaz-Schatz stent placement without post-procedural systemic anticoagulation **344**
Planning for angioplasty **105**
Why there should be constraints about who performs coronary angioplasty **106**
Anomalous origin, Anomalous origin of the left coronary artery from the pulmonary artery **136**
Antiarrhythmics, Effects of blockade of fast and slow inward current channels on ventricular fibrillation in the pig heart **513**
Anticoagulation, Changing from intensive anticoagulation to treatment with aspirin alone for coronary stents **238**
Antiplatelet therapy, Intravascular ultrasound-guided emergency coronary Palmaz-Schatz stent placement without post-procedural systemic anticoagulation **344**
Aorta
Imaging the thoracic aorta **3**
Thrombus in a normal sinus of Valsalva **287**
Aortic arch, Atherosclerosis of the aortic arch and risk of ischaemic stroke **62**
Aortic arch anomaly, Left common carotid artery arising from the pulmonary artery in a patient with DiGeorge syndrome **82**
Aortic membrane, Echocardiographic diagnosis of a subvalvar aortic membrane **489**
Aortic stenosis
Aortic stenosis in homozygous familial hypercholesterolaemia **84**
Effects of incoordination on left ventricular force-velocity relation in aortic stenosis **495**
Effects of increasing flow rate on aortic stenotic indices **490**
Infant Ross procedure for recurrent aortic stenosis **449**
Is pressure recovery an important cause of "Doppler aortic stenosis" with no gradient at cardiac catheterisation? **381**
Severe aortic stenosis without left ventricular hypertrophy **250**
Aortic valve, Prophylactic replacement of Björk-Shiley convexo-concave heart valves **264**
Aortopulmonary connections, Total UK multi-centre experience with a novel arterial occlusion device (Duct Occlud pfm) **520**
Arrhythmia
Familial neonatal atrial tachycardia **178**
Significance of perfusion of the infarct related coronary artery for susceptibility to ventricular tachyarrhythmias in patients with previous myocardial infarction **91**
Arrhythmogenic right ventricular cardiomyopathy, Spin-echo nuclear magnetic resonance for tissue characterisation in arrhythmogenic right ventricular cardiomyopathy **467**
Arterial duct (ductus arteriosus), Closure of the arterial duct **461**
Evolving use of embolisation coils for occlusion of the arterial duct **525**
Transcatheter occlusion of the arterial duct with Cook detachable coils **269**
Aspirin
Changing from intensive anticoagulation to treatment with aspirin alone for coronary stents **238**
Wide health remit for aspirin **92**
Asymptomatic left ventricular dysfunction, Natriuretic peptides and cyclic guanosine 3′,5′-monophosphate in asymptomatic and symptomatic left ventricular dysfunction **129**
Atherosclerosis
Atherosclerosis of the aortic arch and risk of ischaemic stroke **62**
Clinically stable angina pectoris is not necessarily associated with histologically stable atherosclerotic plaques **312**
Genes, greens, and homocysteine **103**
Homocysteine **101**
Increased serum concentrations of interleukin-1β in patients with coronary artery disease **24**
Lipid lowering in the young **1**
Resistive vessel function in coronary artery disease **299**
Atrial fibrillation, Mitral valve replacement for pacing-induced severe mitral regurgitation after radiofrequency ablation of the atrioventricular junction **457**
Atrial isomerism, Isomerism of the atrial appendages associated with 22q11 deletion in a fetus **548**
Atrial septostomy, Percutaneous balloon dilatation of the atrial septum **502**
Atrial tachycardia, Familial neonatal atrial tachycardia **178**
Atrioventricular block, Temporary decrease in heart rate in Lyme carditis during treatment with antibiotics **289**
Atrioventricular dissociation, Recurrent, life-threatening atrioventricular dissociation associated with toxoplasma myocarditis **453**
Audit
Changing patterns of investigation and treatment of cardiac failure in hospital **427**
Permanent pacemaker implantation after cardiac transplantation **439**
Permanent pacemaker use after cardiac transplantation **435**
Automatic ECG measurement, Accuracy of four automatic QT measurement techniques in cardiac patients and healthy subjects **422**

Balloon angioplasty, Coronary Palmaz-Schatz stent implantation in acute myocardial infarction **91**
Balloon dilatation, Percutaneous balloon dilatation of the atrial septum **502**
Becker's muscular dystrophy, Left ventricular non-compaction in a patient with Becker's muscular dystrophy **380**
Biochemical markers, Detection and prevention of myocardial damage during open heart surgery **189**
Bioenergetics, Abnormalities in exercising skeletal muscle in congestive heart failure can be explained in terms of decreased mitochondrial ATP synthesis, reduced metabolic efficiency, and increased glycogenolysis **35**
Björk-Shiley CC valve, Welder identity, weld date, and the risk of outlet strut fracture in Björk-Shiley convexo-concave valves **510**
Blunt injury, Right coronary artery pseudoaneurysm after blunt injury to the chest **86**
Brain natriuretic peptide, Plasma cardiac natriuretic peptide determination as a screening test for the detection of patients with mild left ventricular impairment **232**

Bridge to recovery, Need for artificial hearts **200**
Bundle branch reentry, Wide complex tachycardia with atrioventricular dissociation and QRS morphology identical to that of sinus rhythm **541**

Caffeine, Caffeine restriction has no role in the management of patients with symptomatic idiopathic ventricular premature beats **355**
Calcification, 3D construction from spiral CT scanning of pericardial calcification **213**
Carbon dioxide laser
Transmyocardial revascularisation **191**
Carbon dioxide output, Ventilation/carbon dioxide production ratio in early exercise predicts poor functional capacity in congestive heart failure **393**
Cardiac arrest, Out-of-hospital cardiac arrests in Helsinki **18**
Cardiac surgery, Can clonidine, enoximone, and enalaprilat help to protect the myocardium against ischaemia in cardiac surgery? **207**
Vulnerability of paediatric myocardium to cardiac surgery **214**
Cardiac transplantation
Permanent pacemaker implantation after cardiac transplantation **439**
Permanent pacemaker use after cardiac transplantation **435**
Cardiomyopathy
Serological and molecular evidence of enterovirus infection in patients with end-stage dilated cardiomyopathy **243**
Treatment of ventricular tachycardia-induced cardiomyopathy by transcatheter radiofrequency ablation **550**
Cardiovascular risk factors, *Helicobacter pylori* seropositivity in subjects with acute myocardial infarction **308**
Carotid intima-media thickness, Carotid intima-media thickness in young patients with familial hypercholesterolaemia **321**
Catheter ablation, Catheter ablation for successful management of left posterior fascicular tachycardia **291**
Catheterisation
Cardiac catheter complications related to left main stem disease **76**
Is pressure recovery an important cause of "Doppler aortic stenosis" with no gradient at cardiac catheterisation? **381**
Multi-Track angiography catheter **173**
Chemoreceptors, Contribution of peripheral chemoreceptors to ventilation and the effects of their suppression on exercise tolerance in chronic heart failure **483**
Chest pain
Distress correlates with degree of chest pain **291**
Impact of a public campaign on pre-hospital delay in patients reporting chest pain **150**
Women with chest pain **156**
Chromosome 22q11, Isomerism of the atrial appendages associated with 22q11 deletion in a fetus **548**
Chronic heart failure
Airway and cough responsiveness and exhaled nitric oxide in nonsmoking patients with stable chronic heart failure **144**
Contribution of peripheral chemoreceptors to ventilation and the effects of their suppression on exercise tolerance in chronic heart failure **483**
Inspiratory muscle endurance in patients with chronic heart failure **332**
Plasma cardiac natriuretic peptide determination as a screening test for the detection of patients with mild left ventricular impairment **232**
Quality of life and cardiorespiratory function in chronic heart failure **42**
Circadian rhythm, Circadian variation of left ventricular diastolic function in healthy people **90**
Clinical trials, Effect of pimobendan on exercise capacity in patients with heart failure **223**
Coils
Closure of the arterial duct **461**
Evolving use of embolisation coils for occlusion of the arterial duct **525**
Total UK multi-centre experience with a novel arterial occlusion device (Duct Occlud pfm) **520**
Transcatheter closure of large patent ductus arteriosus (≥4 mm) with multiple Gianturco coils **536**
Transcatheter occlusion of the arterial duct with Cook detachable coils **269**
Transcatheter occlusion of the patent ductus arteriosus with Cook detachable coils **531**
Complications, Cardiac catheter complications related to left main stem disease **76**
Computed tomography
Evaluation by electron beam computed tomography of intracardiac masses suspected by transoesophageal echocardiography **256**
3D construction from spiral CT scanning of pericardial calcification **213**
Imaging the thoracic aorta **3**
Computer, Digital storage and transmission of cardiovascular images **13**
Congenital heart defects, Percutaneous balloon dilatation of the atrial septum **502**
Congenital heart disease
Disturbed mother-infant interaction in association with congenital heart disease **56**
Ethics committees and the treatment of congenital heart disease **463**
Investigating mother-infant interaction **8**
Multi-Track angiography catheter **173**
Physical activities in patients with congenital heart disease **6**
Pulmonary balloon valvuloplasty in the palliation of complex cyanotic congenital heart disease **363**
Total UK multi-centre experience with a novel arterial occlusion device (Duct Occlud pfm) **520**
Congenital vascular anomaly, Left common carotid artery arising from the pulmonary artery in a patient with DiGeorge syndrome **82**
Congestive heart failure
Abnormalities in exercising skeletal muscle in congestive heart failure can be explained in terms of decreased mitochondrial ATP synthesis, reduced metabolic efficiency, and increased glycogenolysis **35**
Neuroendocrine response to standing and mild exercise in patients with untreated severe congestive heart failure and chronic constrictive pericarditis **50**
Specific changes in skeletal muscle myosin heavy chain composition in cardiac failure **337**
Connexin43, Altered patterns of cardiac intercellular junction distribution in hypertrophic cardiomyopathy **412**
Constrictive pericarditis, Neuroendocrine response to standing and mild exercise in patients with untreated severe congestive heart failure and chronic constrictive pericarditis **50**
Contraception, Family planning requirements in the adult congenital heart disease clinic **60**
Cook spring coils, Transcatheter occlusion of the patent ductus arteriosus with Cook detachable coils **531**
Coronary angiography, Women with chest pain **156**
Coronary arteries
Long-term fate of the coronary arteries after the arterial switch operation in newborns with transposition of the great arteries **274**
Post-exercise vasospastic angina in a patient with normal coronary arteries **87**
Right coronary artery pseudoaneurysm after blunt injury to the chest **86**
Usefulness of transoesophageal echocardiography in showing the route of anomalous coronary arteries **183**
Coronary artery disease
Accuracy of dobutamine stress echocardiography for the diagnosis of coronary artery stenosis in patients with myocardial infarction **123**
Hyperhomocysteinaemia and premature coronary artery disease in the Chinese **117**
Coronary artery fistula, Prenatal detection and progression of right coronary artery to right ventricle fistula **79**
Value of transoesophageal echocardiography in surgical ligation of coronary artery fistulas **181**
Coronary blood flow, Alterations of coronary blood flow and myocardial perfusion in hypercholesterolaemia **295**
Coronary heart disease
Beyond cholesterol reduction in coronary heart disease **293**
Hyperhomocysteinaemia, *Helicobacter pylori,* and coronary heart disease **305**
Lipid lowering in the young **1**
Measuring outcomes **70**
Coronary ostial occlusion, Coronary ostial occlusion **411**
Coronary revascularisation, Distress correlates with degree of chest pain **291**

Coronary stents, Changes in membrane glycoproteins of circulating platelets after coronary stent implantation **166**
Coronary Palmaz-Schatz stent implantation in acute myocardial infarction **91**
Cough response, Airway and cough responsiveness and exhaled nitric oxide in non-smoking patients with stable chronic heart failure **144**
Cross sectional echocardiography, Quantitative three dimensional echocardiography in patients with pulmonary hypertension and compressed left ventricles **350**
Cyclic guanosine monophosphate, Natriuretic peptides and cyclic guanosine 3′,5′-monophosphate in asymptomatic and symptomatic left ventricular dysfunction **129**

Decision analysis, Prophylactic replacement of Björk-Shiley convexo-concave heart valves **264**
Defibrillator, Defibrillator twiddler's syndrome **455**
Delay, Evaluation of the results of media and educational campaigns designed to shorten the time taken by patients with acute myocardial infarction to decide to go to hospital **430**
Desmosomes, Altered patterns of cardiac intercellular junction distribution in hypertrophic cardiomyopathy **412**
Diabetes, St Vincent Task Force for Diabetes **107**
Diastole
ACE inhibitors unmask incoordinate diastolic wall motion in restrictive left ventricular disease **326**
Circadian variation of left ventricular diastolic function in healthy people **90**
Echocardiographic evaluation of ventricular diastolic function **386**
Dietary restriction, Caffeine restriction has no role in the management of patients with symptomatic idiopathic ventricular premature beats **355**
DiGeorge syndrome, Left common carotid artery arising from the pulmonary artery in a patient with DiGeorge syndrome **82**
Digital imaging and communication in medicine (DICOM), Digital storage and transmission of cardiovascular images **13**
Dilated cardiomyopathy, Myocardial dysfunction in human immunodeficiency virus infection **161**
Dobutamine stress echocardiography, Accuracy of dobutamine stress echocardiography for the diagnosis of coronary artery stenosis in patients with myocardial infarction **123**
Doppler-derived peak instantaneous cardiac catherisation, Is pressure recovery an important cause of "Doppler aortic stenosis" with no gradient at cardiac catheterisation? **381**
Doppler echocardiography, Does Doppler myocardial imaging give new insights or simply old information revisited? **197**
Double outlet right ventricle, Double outlet right ventricle with unprotected pulmonary vasculature presenting in a woman of 65 **187**
Drug closure, Drug induced closure of patent ductus arteriosus **384**
Drug provocation, Effect of patient characteristics on the yield of prolonged baseline head-up tilt testing and the additional yield of drug provocation **406**
Drug trial design, Natural variability of transient myocardial ischaemia during daily life **477**
Duct Occlud pfm, Total UK multi-centre experience with a novel arterial occlusion device (Duct Occlud pfm) **520**
Ductus arteriosus
Closure of the arterial duct **461**
Drug induced closure of patent ductus arteriosus **384**
Transcatheter closure of large patent ductus arteriosus (≥4 mm) with multiple Gianturco coils **536**
Transcatheter occlusion of the patent ductus arteriosus with Cook detachable coils **531**

Earthquake, Earthquake tachycardia **23**
Echocardiography
Changing patterns of investigation and treatment of cardiac failure in hospital **427**
Digital storage and transmission of cardiovascular images **13**
Echocardiographic diagnosis of a subvalvar aortic membrane **489**
Echocardiographic evaluation of ventricular diastolic function **386**
Effects of incoordination on left ventricular force-velocity relation in aortic stenosis **495**
Myocardial dysfunction in human immunodeficiency virus infection **161**
Tissue Doppler echocardiography **193**
Elderly patients, Fludrocortisone in the treatment of hypotensive disorders in the elderly **507**
Electrocardiogram, How epicardial U-wave changes are reflected in body surface precordial electrocardiograms in anterior or inferoposterior myocardial ischaemia during coronary angioplasty **397**
Enalapril, Increased myocardial [^{123}I]-metaiodobenzylguanidine uptake after enalapril treatment in patients with chronic heart failure **218**
Endocarditis, Bacterial endocarditis involving a subaortic membrane **370**
Endomyocardial biopsy, Spin-echo nuclear magnetic resonance for tissue characterisation in arrhythmogenic right ventricular cardiomyopathy **467**
Endomyocardial fibrosis, Hypereosinophilic syndrome **377**
Endurance, Inspiratory muscle endurance in patients with chronic heart failure **332**
Enterovirus RNA detection, Serological and molecular evidence of enterovirus infection in patients with end-stage dilated cardiomyopathy **243**
Enterovirus-specific immunoglobulin M responses, Serological and molecular evidence of enterovirus infection in patients with end-stage dilated cardiomyopathy **243**
Ethics, Ethics committees and the treatment of congenital heart disease **463**
Exercise
Neuroendocrine response to standing and mild exercise in patients with untreated severe congestive heart failure and chronic constrictive pericarditis **50**
Physical activities in patients with congenital heart disease **6**
Skeletal muscle metabolism during exercise in patients with chronic heart failure **29**
Exercise capacity, Effect of pimobendan on exercise capacity in patients with heart failure **223**
Exercise rehabilitation, Quality of life and cardiorespiratory function in chronic heart failure **42**
Exercise test, Women with chest pain **156**
Exercise tolerance
Contribution of peripheral chemoreceptors to ventilation and the effects of their suppression on exercise tolerance in chronic heart failure **483**
Ventilation/carbon dioxide production ratio in early exercise predicts poor functional capacity in congestive heart failure **393**
Exhaled nitric oxide, Airway and cough responsiveness and exhaled nitric oxide in non-smoking patients with stable chronic heart failure **144**

Familial cardiomyopathy, Familial right ventricular dysplasia with biventricular involvement and inflammatory infiltration **66**
Familial hypercholesterolaemia
Aortic stenosis in homozygous familial hypercholesterolaemia **84**
Carotid intima-media thickness in young patients with familial hypercholesterolaemia **321**
Lipid lowering in the young **1**
Familial hypertrophic cardiomyopathy, Clinical implications of hypertrophic cardiomyopathy associated with mutations in the α-tropomyosin gene **63**
Fascicular potentials, Catheter ablation for successful management of left posterior fascicular tachycardia **291**
Fascicular tachycardia, Catheter ablation for successful management of left posterior fascicular tachycardia **291**
Fenestration of the atrial septum, Effect of percutaneous fenestration of the atrial septum on protein-losing enteropathy after the Fontan operation **90**
Fetal karyotype, Isomerism of the atrial appendages associated with 22q11 deletion in a fetus **548**
Fibrinolysis, Carotid intima-media thickness in young patients with familial hypercholesterolaemia **321**
Fludrocortisone, Fludrocortisone in the treatment of hypotensive disorders in the elderly **507**
Fontan operation, Effect of percutaneous fenestration of the atrial septum on protein-losing enteropathy after the Fontan operation **90**
Foramen ovale, Right to left thromboembolism through a patent foramen ovale **143**

Gap junctions, Altered patterns of cardiac intercellular junction distribution in hypertrophic cardiomyopathy **412**
Gastrointestinal cancer, Wide health remit for aspirin **92**
Gating properties, K+ channel opening **109**
Gender, Severe aortic stenosis without left ventricular hypertrophy **250**

Genes, Genetic factors in familial hypertrophic cardiomyopathy **465**
Gerbode's defect, Gerbode's defect associated with acute sinus node dysfunction as a complication of infective endocarditis **379**
Gianturco coil, Transcatheter closure of large patent ductus arteriosus (⩾4 mm) with multiple Gianturco coils **536**
Guidelines
Planning for coronary angioplasty **105**
Why there should be constraints about who performs coronary angioplasty **106**

Harvey, William Harvey (1578–1657) **11**
Head-up tilt, Effect of patient characteristics on the yield of prolonged baseline head-up tilt testing and the additional yield of drug provocation **406**
Heart failure
ACE inhibitors unmask incoordinate diastolic wall motion in restrictive left ventricular disease **326**
Changing patterns of investigation and treatment of cardiac failure in hospital **427**
Effect of pimobendan on exercise capacity in patients with heart failure **223**
Increase in hospital admission rates for heart failure in the Netherlands, 1980–1993 **388**
Increased myocardial [^{123}I]-metaiodobenzylguanidine uptake after enalapril treatment in patients with chronic heart failure **218**
Need for artificial hearts **200**
Skeletal muscle metabolism during exercise in patients with chronic heart failure **29**
Ventilation/carbon dioxide production ratio in early exercise predicts poor functional capacity in congestive heart failure **393**
Heart valve prosthesis, Welder identity, weld date, and the risk of outlet strut fracture in Björk-Shiley convexo-concave valves **510**
Heat shock proteins, Stress proteins **97**
Helicobacter pylori, Hyperhomocysteinaemia, *Helicobacter pylori,* and coronary heart disease **305**
Helicobacter pylori seropositivity in subjects with acute myocardial infarction **308**
Heparin, Treatment of the heparin-induced thrombosis-thrombocytopenia syndrome by very low dose streptokinase **185**
Hiatal hernia, Failure to obtain a transoesophageal echocardiographic window because of a rolling hiatal hernia **88**
HIV, Myocardial dysfunction in human immunodeficiency virus infection **161**
Homocysteine
Genes, greens, and homocysteine **103**
Homocysteine **101**
Hospital discharges, Increase in hospital admission rates for heart failure in the Netherlands, 1980–1993 **388**
Hypercholesterolaemia, Alterations of coronary blood flow and myocardial perfusion in hypercholesterolaemia **295**
Hypereosinophilic syndrome, Hypereosinophilic syndrome **377**
Hyperhomocysteinaemia
Hyperhomocysteinaemia and premature coronary artery disease in the Chinese **117**
Hyperhomocysteinaemia, *Helicobacter pylori,* and coronary heart disease **305**
Hypertrophic cardiomyopathy
Altered patterns of cardiac intercellular junction distribution in hypertrophic cardiomyopathy **412**
Effects of permanent dual chamber pacing on myocardial perfusion in symptomatic hypertrophic cardiomyopathy **358**
Genetic factors in familial hypertrophic cardiomyopathy **465**
Non-surgical ablation of the ventricular septum for the treatment of hypertrophic cardiomyopathy **92**
Previously undescribed de novo insertion-deletion mutation in the β myosin heavy chain gene in a kindred with familial hypertrophic cardiomyopathy **451**
Short term reduction of left ventricular mass in primary hypertrophic cardiomyopathy by octreotide injections **418**
Hypertrophy, Severe aortic stenosis without left ventricular hypertrophy **250**
Hypotensive disorders, Fludrocortisone in the treatment of hypotensive disorders in the elderly **507**

Imaging
Imaging the thoracic aorta **3**
Tissue Doppler echocardiography **193**
Immunohistochemistry, Clinically stable angina pectoris is not necessarily associated with histologically stable atherosclerotic plaques **312**
Incoordination, Effects of incoordination on left ventricular force-velocity relation in aortic stenosis **495**
Infant
Acute tamponade in a newborn infant caused by a massive cystic teratoma **188**
Infant Ross procedure for recurrent aortic stenosis **449**
Infective endocarditis, Gerbode's defect associated with acute sinus node dysfunction as a complication of infective endocarditis **379**
Inflammation
Clinically stable angina pectoris is not necessarily associated with histologically stable atherosclerotic plaques **312**
Increased serum concentrations of interleukin-1β in patients with coronary artery disease **24**
Interleukin-1β, Increased serum concentrations of interleukin-1β in patients with coronary artery disease **24**
Interventional cardiology, Intraoperative apical ventricular septal defect closure using a modified Rashkind double umbrella **367**
Interventional catheterisation, Pulmonary balloon valvuloplasty in the palliation of complex cyanotic congenital heart disease **363**
Intimal proliferation, Use of intravascular ultrasound for in vivo assessment of changes in intimal thickness of angiographically normal saphenous vein grafts one year after aortocoronary bypass surgery **317**
Intracardiac echocardiography, Percutaneous transvenous intracardiac ultrasound imaging in dogs **442**
Intracoronary glyceryl trinitrate, Effect of pre-treatment with transdermal glyceryl trinitrate on myocardial ischaemia during coronary angioplasty **471**
Intravascular treatment, Intravascular radiation for restenosis prevention **99**
Intravascular ultrasound
Case of myocardial bridging **374**
Intravascular ultrasound-guided emergency coronary Palmaz-Schatz stent placement without post-procedural systemic anticoagulation **344**
Use of intravascular ultrasound for in vivo assessment of changes in intimal thickness of angiographically normal saphenous vein grafts one year after aortocoronary bypass surgery **317**
Ischaemia, Accuracy of dobutamine stress echocardiography for the diagnosis of coronary artery stenosis in patients with myocardial infarction **123**
Ischaemic coronary syndromes, Clinically stable angina pectoris is not necessarily associated with histologically stable atherosclerotic plaques **312**
Ischaemic heart disease, Distress correlates with degree of chest pain **291**
Ischaemic markers, Can clonidine, enoximone, and enalaprilat help to protect the myocardium against ischaemia in cardiac surgery? **207**

K+ channels, K+ channel opening **109**

Lactate, Angina in McArdle's disease **372**
Late presentation, Double outlet right ventricle with unprotected pulmonary vasculature presenting in a woman of 65 **187**
Left coronary pulmonary artery, Anomalous origin of the left coronary artery from the pulmonary artery **136**
Left main stem, Cardiac catheter complications related to left main stem disease **76**
Left ventricle
Ball thrombus in the left ventricle **242**
Left ventricular non-compaction in a patient with Becker's muscular dystrophy **380**
Left ventricular deformity, Quantitative three dimensional echocardiography in patients with pulmonary hypertension and compressed left ventricles **350**
Left ventricular dysfunction, Double blind placebo controlled trial of short term transdermal scopolamine on heart rate variability in patients with chronic heart failure **137**
Left ventricular function
Percutaneous transvenous intracardiac ultrasound imaging in dogs **442**
Plasma cardiac natriuretic peptide determination as a screening test for the detection of patients with mild left ventricular impairment **232**
Left ventricular systolic function, Effects of incoordination on left ventricular force-velocity relation in aortic stenosis **495**

Lichen sclerosus, Haemorrhagic bullae in a patient with lichen sclerosus et atrophicus treated with streptokinase **448**
Life-expectancy, Prophylactic replacement of Björk-Shiley convexo-concave heart valves **264**
Long-term response, Quality of life and cardiorespiratory function in chronic heart failure **42**
Lyme carditis, Temporary decrease in heart rate in Lyme carditis during treatment with antibiotics **289**

Magnetic resonance imaging, Imaging the thoracic aorta **3**
McArdle's disease, Angina in McArdle's disease **372**
Mechanical hearts, Need for artificial hearts **200**
Membrane glycoproteins, Changes in membrane glycoproteins of circulating platelets after coronary stent implantation **166**
Metabolism, Skeletal muscle metabolism during exercise in patients with chronic heart failure **29**
[^{123}I]-metaiodobenzylguanidine SPET, Increased myocardial [^{123}I]-metaiodobenzylguanidine uptake after enalapril treatment in patients with chronic heart failure **218**
Microbiopsies, Specific changes in skeletal muscle myosin heavy chain composition in cardiac failure **337**
Microdeletion, Isomerism of the atrial appendages associated with 22q11 deletion in a fetus **548**
Mitral regurgitation, Mitral valve replacement for pacing-induced severe mitral regurgitation after radiofrequency ablation of the atrioventricular junction **457**
Mitral stenosis, Effects of increasing flow rate on aortic stenotic indices **490**
Mitral valve, Prophylactic replacement of Björk-Shiley convexo-concave heart valves **264**
Molecular cardiology, Genetic factors in familial hypertrophic cardiomyopathy **465**
Monitoring, Percutaneous transvenous intracardiac ultrasound imaging in dogs **442**
Mortality, Measuring outcomes **70**
Mother-infant interaction
Disturbed mother-infant interaction in association with congenital heart disease **56**
Investigating mother-infant interaction **8**
Mutation, Previously undescribed de novo insertion-deletion mutation in the β myosin heavy chain gene in a kindred with familial hypertrophic cardiomyopathy **451**
Myocardial bridge, Case of myocardial bridging **374**
Myocardial damage, Detection and prevention of myocardial damage during open heart surgery **189**
Myocardial imaging, Does Doppler myocardial imaging give new insights or simply old information revisited? **197**
Myocardial infarction
Accuracy of dobutamine stress echocardiography for the diagnosis of coronary artery stenosis in patients with myocardial infarction **123**
Evaluation of the results of media and educational campaigns designed to shorten the time taken by patients with acute myocardial infarction to decide to go to hospital **430**
Genes, greens, and homocysteine **103**
Helicobacter pylori seropositivity in subjects with acute myocardial infarction **308**
Homocysteine **101**
Impact of a public campaign on pre-hospital delay in patients reporting chest pain **150**
Is thrombolytic therapy really better than conventional treatment in acute inferior myocardial infarction? **291**
Measuring outcomes **70**
Serum lipids four weeks after acute infarction are a valid basis for lipid lowering intervention in patients receiving thrombolysis **90**
Significance of perfusion of the infarct related coronary artery for susceptibility to ventricular tachyarrhythmias in patients with previous myocardial infarction **91**
Stress proteins **97**
Myocardial injury, Vulnerability of paediatric myocardium to cardiac surgery **214**
Myocardial ischaemia
Effect of pre-treatment with transdermal glyceryl trinitrate on myocardial ischaemia during coronary angioplasty **471**
How epicardial U-wave changes are reflected in body surface precordial electrocardiograms in anterior or inferoposterior myocardial ischaemia during coronary angioplasty **397**
Myocardial perfusion, Alterations of coronary blood flow and myocardial perfusion in hypercholesterolaemia **295**
Myocardial preservation, Can clonidine, enoximone, and enalaprilat help to protect the myocardium against ischaemia in cardiac surgery? **207**
Myocardial protection, Stress proteins **97**
Myocardial tissue damage, Can clonidine, enoximone, and enalaprilat help to protect the myocardium against ischaemia in cardiac surgery? **207**
Myocarditis
Familial right ventricular dysplasia with biventricular involvement and inflammatory infiltration **66**
Recurrent, life-threatening atrioventricular dissociation associated with toxoplasma myocarditis **453**
Myocardium, Transmyocardial revascularisation **191**
Myophosphorylase, Angina in McArdle's disease **372**
Myosin, Previously undescribed de novo insertion-deletion mutation in the β myosin heavy chain gene in a kindred with familial hypertrophic cardiomyopathy **451**
Specific changes in skeletal muscle myosin heavy chain composition in cardiac failure **337**

Nabumetone, Hypereosinophilic syndrome **377**
Natriuretic peptides, Natriuretic peptides and cyclic guanosine 3′,5′-monophosphate in asymptomatic and symptomatic left ventricular dysfunction **129**
Neonatal period, Familial neonatal atrial tachycardia **178**
Neoplasms, Evaluation by electron beam computed tomography of intracardiac masses suspected by transoesophageal echocardiography **256**
Netherlands, Increase in hospital admission rates for heart failure in the Netherlands, 1980–1993 **388**
Neuroendocrine response, Neuroendocrine response to standing and mild exercise in patients with untreated severe congestive heart failure and chronic constrictive pericarditis **50**
Non-compaction, Left ventricular non-compaction in a patient with Becker's muscular dystrophy **380**
Non-steroidal anti-inflammatory drugs, Hypereosinophilic syndrome **377**
N-terminal pro-atrial natriuretic factor, Plasma cardiac natriuretic peptide determination as a screening test for the detection of patients with mild left ventricular impairment **232**
Nuclear magnetic resonance, Spin-echo nuclear magnetic resonance for tissue characterisation in arrhythmogenic right ventricular cardiomyopathy **467**

Octreotide, Short term reduction of left ventricular mass in primary hypertrophic cardiomyopathy by octreotide injections **418**
Open heart surgery, Detection and prevention of myocardial damage during open heart surgery **189**
Out-of-hospital resuscitation, Out-of-hospital cardiac arrests in Helsinki **18**
Oxygen uptake, Ventilation/carbon dioxide production ratio in early exercise predicts poor functional capacity in congestive heart failure **393**

Pacemakers
Permanent pacemaker implantation after cardiac transplantation **439**
Permanent pacemaker use after cardiac transplantation **435**
Pacing
Effects of permanent dual chamber pacing on myocardial perfusion in symptomatic hypertrophic cardiomyopathy **358**
Mitral valve replacement for pacing-induced severe mitral regurgitation after radiofrequency ablation of the atrioventricular junction **457**
Paediatric cardiology, Ethics committees and the treatment of congenital heart disease **463**
Vulnerability of paediatric myocardium to cardiac surgery **214**
Palpitations, Caffeine restriction has no role in the management of patients with symptomatic idiopathic ventricular premature beats **355**
Patient education, Evaluation of the results of media and educational campaigns designed to shorten the time taken by patients with acute myocardial infarction to decide to go to hospital **430**
Perfusion imaging, Effects of permanent dual chamber pacing on myocardial perfusion in symptomatic hypertrophic cardiomyopathy **358**
Pericardium, 3D construction from spiral CT scanning of pericardial calcification **213**
Pharmacology, K+ channel opening **109**

Phenotypic analysis, Clinical implications of hypertrophic cardiomyopathy associated with mutations in the α-tropomyosin gene **63**
Pimobendan, Effect of pimobendan on exercise capacity in patients with heart failure **223**
Platelets, Changes in membrane glycoproteins of circulating platelets after coronary stent implantation **166**
^{31}P magnetic resonance spectroscopy, Abnormalities in exercising skeletal muscle in congestive heart failure can be explained in terms of decreased mitochondrial ATP synthesis, reduced metabolic efficiency, and increased glycogenolysis **35**
Potassium, K+ channel opening **109**
Power spectrum, Double blind placebo controlled trial of short term transdermal scopolamine on heart rate variability in patients with chronic heart failure **137**
Pre-hospital delay, Impact of a public campaign on pre-hospital delay in patients reporting chest pain **150**
Prenatal detection, Prenatal detection and progression of right coronary artery to right ventricle fistula **79**
Primary pulmonary hypertension, Percutaneous balloon dilatation of the atrial septum **502**
Prognosis
Clinical implications of hypertrophic cardiomyopathy associated with mutations in the α-tropomyosin gene **63**
Measuring outcomes **70**
Protein-losing enteropathy, Effect of percutaneous fenestration of the atrial septum on protein-losing enteropathy after the Fontan operation **90**
Pseudoaneurysm, Right coronary artery pseudoaneurysm after blunt injury to the chest **86**
Public campaign, Impact of a public campaign on pre-hospital delay in patients reporting chest pain **150**
Pulmonary hypertension, Quantitative three dimensional echocardiography in patients with pulmonary hypertension and compressed left ventricles **350**
Pulmonary stenosis, Pulmonary balloon valvuloplasty in the palliation of complex cyanotic congenital heart disease **363**
Pulmonary valvuloplasty, Pulmonary balloon valvuloplasty in the palliation of complex cyanotic congenital heart disease **363**
Pulmonary vascular disease, Double outlet right ventricle with unprotected pulmonary vasculature presenting in a woman of 65 **187**

QT measurement, Accuracy of four automatic QT measurement techniques in cardiac patients and healthy subjects **422**
Quality of life
Distress correlates with degree of chest pain **291**
Quality of life and cardiorespiratory function in chronic heart failure **42**

Radiation, Intravascular radiation for restenosis prevention **99**
Radiofrequency, Treatment of ventricular tachycardia-induced cardiomyopathy by transcatheter radiofrequency ablation **550**
Radionuclide ventriculography, Natriuretic peptides and cyclic guanosine 3′,5′-monophosphate in asymptomatic and symptomatic left ventricular dysfunction **129**
Rashkind double umbrella, Intraoperative apical ventricular septal defect closure using a modified Rashkind double umbrella **367**
Reperfusion, Significance of perfusion of the infarct related coronary artery for susceptibility to ventricular tachyarrhythmias in patients with previous myocardial infarction **91**
Repolarisation, Accuracy of four automatic QT measurement techniques in cardiac patients and healthy subjects **422**
Resistive vessels, Resistive vessel function in coronary artery disease **299**
Respiratory muscles, Inspiratory muscle endurance in patients with chronic heart failure **332**
Restenosis, Intravascular radiation for restenosis prevention **99**
Restrictive left ventricular physiology, ACE inhibitors unmask incoordinate diastolic wall motion in restrictive left ventricular disease **326**
Revascularisation, Transmyocardial revascularisation **191**
Right ventricular dysplasia, Familial right ventricular dysplasia with biventricular involvement and inflammatory infiltration **66**
Risk factors, Hyperhomocysteinaemia and premature coronary artery disease in the Chinese **117**
Ross procedure, Infant Ross procedure for recurrent aortic stenosis **449**
Saphenous vein graft, Use of intravascular ultrasound for in vivo assessment of changes in intimal thickness of angiographically normal saphenous vein grafts one year after aortocoronary bypass surgery **317**
Scopolamine, Double blind placebo controlled trial of short term transdermal scopolamine on heart rate variability in patients with chronic heart failure **137**
Serum lipids, Serum lipids four weeks after acute infarction are a valid basis for lipid lowering intervention in patients receiving thrombolysis **90**
Side effects, Haemorrhagic bullae in a patient with lichen sclerosus et atrophicus treated with streptokinase **448**
Sinus node, Gerbode's defect associated with acute sinus node dysfunction as a complication of infective endocarditis **379**
Sinus of Valsalva, Thrombus in a normal sinus of Valsalva **287**
Skeletal muscle
Abnormalities in exercising skeletal muscle in congestive heart failure can be explained in terms of decreased mitochondrial ATP synthesis, reduced metabolic efficiency, and increased glycogenolysis **35**
Skeletal muscle metabolism during exercise in patients with chronic heart failure **29**
Skeletal muscle myopathy, Specific changes in skeletal muscle myosin heavy chain composition in cardiac failure **337**
Stable angina, Natural variability of transient myocardial ischaemia during daily life **477**
Stamps
Jan Evangelista Purkinje (1787–1869) **311**
Leonardo da Vinci (1452–1519) **464**
Paul Dudley White (1886–1973) **182**
René Théophile-Hyacinthe Laennec (1781–1826) **196**
Sir Thomas Lewis (1881–1945) **383**
Stamps in cardiology **10**
William Harvey (1578–1657) **11**
Stent
Changing from intensive anticoagulation to treatment with aspirin alone for coronary stents **238**
Intravascular ultrasound-guided emergency coronary Palmaz-Schatz stent placement without post-procedural systemic anticoagulation **344**
Streptokinase, Treatment of the heparin-induced thrombosis-thrombocytopenia syndrome by very low dose streptokinase **185**
Stroke, Atherosclerosis of the aortic arch and risk of ischaemic stroke **62**
Strut fracture, Welder identity, weld date, and the risk of outlet strut fracture in Björk-Shiley convexo-concave valves **510**
ST segment monitoring, Natural variability of transient myocardial ischaemia during daily life **477**
Subaortic membrane, Bacterial endocarditis involving a subaortic membrane **370**
Sudden death, Physical activities in patients with congenital heart disease **6**
Supravalvar aortic atheroma, Aortic stenosis in homozygous familial hypercholesterolaemia **84**
Surgical ligation, Value of transoesophageal echocardiography in surgical ligation of coronary artery fistulas **181**
Survival, Out-of-hospital cardiac arrests in Helsinki **18**
Switch operation, Long-term fate of the coronary arteries after the arterial switch operation in newborns with transposition of the great arteries **274**
Syncope, Effect of patient characteristics on the yield of prolonged baseline head-up tilt testing and the additional yield of drug provocation **406**
Systolic function, Percutaneous transvenous intracardiac ultrasound imaging in dogs **442**

Tachycardia, Earthquake tachycardia **23**
Tamponade, Acute tamponade in a newborn infant caused by a massive cystic teratoma **188**
Teratoma, Acute tamponade in a newborn infant caused by a massive cystic teratoma **188**
Tetralogy of Fallot
Left common carotid artery arising from the pulmonary artery in a patient with DiGeorge syndrome **82**
Ventricular myoarchitecture in tetralogy of Fallot **280**
Three dimensional echocardiography, Quantitative three dimensional echocardiography in patients with pulmonary hypertension and compressed left ventricles **350**
Thromboembolism, Right to left thromboembolism through a patent foramen ovale **143**

Thrombolysis
Evaluation of mortality and morbidity during four years after late thrombolysis in acute myocardial infarction **291**
Is thrombolytic therapy really better than conventional treatment in acute inferior myocardial infarction? **291**
Serum lipids four weeks after acute infarction are a valid basis for lipid lowering intervention in patients receiving thrombolysis **90**
Thrombolytic therapy, Haemorrhagic bullae in a patient with lichen sclerosus et atrophicus treated with streptokinase **448**
Thrombosis
Changing from intensive anticoagulation to treatment with aspirin alone for coronary stents **238**
Coronary Palmaz-Schatz stent implantation in acute myocardial infarction **91**
Evaluation by electron beam computed tomography of intracardiac masses suspected by transoesophageal echocardiography **256**
Genes, greens, and homocysteine **103**
Homocysteine **101**
Thrombosis-thrombocytopenia syndrome, Treatment of the heparin-induced thrombosis-thrombocytopenia syndrome by very low dose streptokinase **185**
Thrombus, Thrombus in a normal sinus of Valsalva **287**
Time domain analysis, Double blind placebo controlled trial of short term transdermal scopolamine on heart rate variability in patients with chronic heart failure **137**
Time trends, Increase in hospital admission rates for heart failure in the Netherlands, 1980–1993 **388**
Tissue Doppler echocardiography, Tissue Doppler echocardiography **193**
Toxoplasma, Recurrent, life-threatening atrioventricular dissociation associated with toxoplasma myocarditis **453**
Transcatheter occlusion
Transcatheter closure of large patent ductus arteriosus (⩾4 mm) with multiple Gianturco coils **536**
Transcatheter occlusion of the patent ductus arteriosus with Cook detachable coils **531**
Transdermal glyceryl trinitrate, Effect of pre-treatment with transdermal glyceryl trinitrate on myocardial ischaemia during coronary angioplasty **471**
Transient myocardial ischaemia, Natural variability of transient myocardial ischaemia during daily life **477**
Transoesophageal echocardiography
Atherosclerosis of the aortic arch and risk of ischaemic stroke **62**
Failure to obtain a transoesophageal echocardiographic window because of a rolling hiatal hernia **88**
Usefulness of transoesophageal echocardiography in showing the route of anomalous coronary arteries **183**
Value of transoesophageal echocardiography in surgical ligation of coronary artery fistulas **181**
Transposition of the great arteries, Long-term fate of the coronary arteries after the arterial switch operation in newborns with transposition of the great arteries **274**
α-tropomyosin gene mutation, Clinical implications of hypertrophic cardiomyopathy associated with mutations in the α-tropomyosin gene **63**
Twiddler's syndrome, Defibrillator twiddler's syndrome **455**

Ultrasonography, Carotid intima-media thickness in young patients with familial hypercholesterolaemia **321**
Umbrella, Closure of the arterial duct **461**
Utstein style, Out-of-hospital cardiac arrests in Helsinki **18**
U wave, How epicardial U-wave changes are reflected in body surface precordial electrocardiograms in anterior or inferoposterior myocardial ischaemia during coronary angioplasty **397**

Valve resistance, Effects of increasing flow rate on aortic stenotic indices **490**
Valvular heart disease, Severe aortic stenosis without left ventricular hypertrophy **250**
Valvuloplasty, Effects of increasing flow rate on aortic stenotic indices **490**
Variant angina, Post-exercise vasospastic angina in a patient with normal coronary arteries **87**
Vasomotor tone, Resistive vessel function in coronary artery disease **299**
Vasospastic angina, Post-exercise vasospastic angina in a patient with normal coronary arteries **87**
Ventilation, Contribution of peripheral chemoreceptors to ventilation and the effects of their suppression on exercise tolerance in chronic heart failure **483**
Ventricular dysfunction, Myocardial dysfunction in human immunodeficiency virus infection **161**
Ventricular fibrillation, Effects of blockade of fast and slow inward current channels on ventricular fibrillation in the pig heart **513**
Ventricular filling, Echocardiographic evaluation of ventricular diastolic function **386**
Ventricular function, Tissue Doppler echocardiography **193**
Ventricular myoarchitecture, Ventricular myoarchitecture in tetralogy of Fallot **280**
Ventricular premature beats, Caffeine restriction has no role in the management of patients with symptomatic idiopathic ventricular premature beats **355**
Ventricular septal defect closure, Intraoperative apical ventricular septal defect closure using a modified Rashkind double umbrella **367**
Ventricular septum, Non-surgical ablation of the ventricular septum for the treatment of hypertrophic cardiomyopathy **92**
Ventricular tachycardia
Treatment of ventricular tachycardia-induced cardiomyopathy by transcatheter radiofrequency ablation **550**
Wide complex tachycardia with atrioventricular dissociation and QRS morphology identical to that of sinus rhythm **541**
Vitamin E, Beyond cholesterol reduction in coronary heart disease **293**

Welder identity, Welder identity, weld date, and the risk of outlet strut fracture in Björk-Shiley convexo-concave valves **510**
Wide QRS complex tachycardia, Wide complex tachycardia with atrioventricular dissociation and QRS morphology identical to that of sinus rhythm **541**
Women, Women with chest pain **156**

Young people, Physical activities in patients with congenital heart disease **6**
